<p>FOI/20 23/005 4</p>	<p>I am writing this email to express my disappointment in what your National Railway Museum has become.</p> <p>The removal of your workshops I feel was the worst decision anyone could have made. You had a fantastic workshop with the ability to and I quote "inspire the next generation of engineers" but instead you decided to fill it with some bright orange eyesore that you call art.</p> <p>How much money was spent on this I ask? Money which would have been better investing in the existing exhibits you have and possibly getting them back in steam again. Nothing would "inspire the next generation of engineers" more than being able to experience what a working steam engine is.</p> <p>The skills involved in restoring and maintaining heritage locomotives and rolling stock is dying out due to the elderly generation who have worked on these locos all their lives giving it up. I have recently overhauled with my small team a locomotive which will see use for the next 10 years and have used the time to also get youngsters involved to make sure the skills are passed on for the future and steam can be kept alive.</p> <p>This "Wonderlab" is another nail in the coffin for the NRM and I hope you rethink your decisions urgently.</p>	<p>s.43</p>
<p>FOI/20 23/005 5</p>	<p>Having looked elsewhere, I cannot seem to find this publicly available. Please could I get a flow chart/list or similar of the entire employee organisational structure of the SMG. I do not require any names of employees to be included, but would like to see how the structure is connected. This information will be used to inform a research project entitled 'The Sensational Museum' for which I am a Research Associate at the University of Leicester.</p>	<p>Information provided</p>

FOI/20 23/006 6	<p>I would like to request copies of any correspondence from the Director of the Science Museum Group (or on their behalf), sent to members of the curatorial team for the Energy Revolution: the Adani Green Energy Gallery, since October 2021. Please provide any written correspondence, minutes of any meetings or phonecalls, other messages and any other documents such as presentations or briefings.</p> <p>The public interest case in favour of disclosure is the simple matter of transparency in decision-making by public servants regarding the portrayal of politically sensitive subjects such as energy transition in the Museum's exhibits. Particlarly in light of the contraversial sponsorship from Adani, there is already demonstrable public interest in the decision-making regarding this gallery.</p>	s.22 and s.40
